NYSPHSAA STATE SURVEY GIRLS TENNIS

Based on the feedback of the previous survey and further discussion with the state association, the girl's tennis state committee would appreciate your response to the following options for a state championship format. Each school's athletic director and girls tennis coach is asked to submit their vote on one sheet, with their signatures and their choices. Please return completed surveys to your section coordinator.

Which of the following state tennis championship formats do you prefer? Please choose one.

Option 1: Continuation of the current individual format in which each section sends three singles players and three doubles teams to the state tournament

Option 2: Team championship format (comparable to those of softball, basketball, soccer, field hockey, etc.) in which tennis teams compete for sectional titles and advance to the state championship

Option 3: Conduct both an individual championship state tournament and a team championship state tournament (both Option 1 and 2).

SCHOOL DISTRICT _____
Athletic Director _____ Option _____
Girls Tennis Coach _____ Option _____
