STATEMENT OF PHILOSOPHY

A united and concerted action on the part of all school members to Section IX is necessary to have a successful program of Interscholastic Athletics.

Section endeavors are geared to provide all children in the athletic community with an inspiration and an environment best adapted to wholesome growth and development, stressing our belief in the democratic way of life and encouraging mental and physical alertness and independent thinking.

It is thus the philosophy of the section that we attempt through athletics to provide an educational experience to assist students in becoming contributing members of society.

Compatible with this philosophy, it is the firm belief of Section IX and New York State Public High School Athletic Association, that:

1. All students are important, and meeting the needs and interests of all students is the challenge to all within the educational community.

2. To appropriately meet the needs and interests of the many public schools of our section, we must provide activities that are coordinated, serviced, and controlled by our schools, leagues and section.

3. All schools appreciate that all cannot be totally satisfied on any given issue; however, all schools through an active system of representation and cooperation can assist in developing sound educational policies for athletic activities.

4. It is of primary importance of the section to organize responsibility and authority within this complex program. Also, it is the effectiveness of such organization that contributes to establishing a pattern for a “statewide” program of interscholastic activities.
