DIRECTIONS

The "**Start Order and Times**" Tab is the main database that feeds the rest of the tabs. The Bib numbers, Names, Schools, Protection Points are entered here. The times for the Slalom and GS races will then need to be plugged in. The information will then *automatically* appear on the other tabs.

Enter ALL info/data onto "Start Order and Times" tab - DO NOT TOUCH RED COLUMNS!! DO NOT SORT "START ORDER AND TIMES" TAB!! DO NOT ENTER INFORMATION ON THE OTHER TABS.

On "**Indiv**" sort from A4 to bottom right by column M (Highlight the info from A4 to the bottom right (I45) and go to **DATA** and then **SORT** and sort by **column M** (Finish Place) make sure that "My data has headers" is NOT checked-in upper right corner of box)

On **SL** sort by "column A" (same steps as above but sort by rank)

On **GS** sort by "column A" (same steps as above but sort by rank)

On **Team** Page, scan all the way over to the right where you will see the racer info, then highlight the bib through combined time columns (L2 to T44?), on the right side of the page, sort by **school**(column M) and "**then by**" (column S) **best runs**. <To do "then by" click "Add Level" which is on the upper left side of the box>

Section IX Team Championship: Scan through the list and add up the top 3 racers from each team <This is done by clicking on the box in column U and then clicking "Formula" and "Sum" and then highlighting the three racers times for the school you want totalled in column T. Determine 1st, 2nd, 3rd, etc. and copy the top racers from each school over to the left by highlighting and hitting CTRL "C". Paste them by clicking in the boxes that you want to paste in and *right click* and choose "**paste special**." Choose "**Values & Source Formating**".

On **Div Slalom** select sort IN ONE STEP by **column C (School)** and "**then by**" **Column G (rank)**

On **Div GS** sort IN ONE STEP by **school** "**then by**" **rank**

OCIAA CHAMP

Copy the top four skiers from the Div 1 team from **Div Slalom** tab and right click **special paste** the **values** and then repeat for Div 2 (you don't need to copy the rank column)

Copy the top four skiers from the Div 1 team from Div GS tab and right click special paste the values and then repeat for Div 2
It should total automatically ****Make sure they have 4 finishers or the total will be incorrect****
